This area of focus offers professionals and non-professionals who are interested in heritage and museum a chance to tackle development issues related to heritage management. It allows them to acquire the knowledge and skills to effectively manage and use the cultural heritage to ensure its conservation and integration in the development of society.

The objective of the programme is to provide students with skills to enable them to:-

- Assess the conditions and needs of a collection taking into account its context, history and use.
- Conceive, plan, design and implement programmes that raise the standard and role of conservation in their museums/ heritage institutions, taking into consideration historical and developmental contexts.

Below are courses offered in thematic area of Heritage Management
